Certified Public Accountants

We provide our  
clients the very  
best strategies  
and a focus toward  
the long view.

## The starting point is in understanding our clients and their businesses.

→ **When you choose Bolar Hirsch & Jennings LLP**, you take the first step in developing a trusted business relationship that will serve you well in the years to come.

**When our firm was established in 1991**, the founding partners were already well known in the community for their business experience and for excellence in their fields of expertise. Since then, we have continued to build on that tradition by developing a staff of professionals who share our dedication to quality service and technical proficiency.

**We serve a diverse group of clients**, who are engaged in a broad spectrum of business and investment activities. We spend the time to get to know our clients, to comprehend their businesses and holdings, and to understand their risk profiles. Because we are an entrepreneurial business, we are familiar with the challenges facing our clients who are entrepreneurs. As a result of our close relationships with our clients, we add significant value when advising our clients about the choices they make. We are often the lead advisor for transactions such as sales, mergers, acquisitions, and restructurings.

*BH&J always makes me feel like I'm their only client by taking such a genuine interest in my particular questions or situations. They have provided expert advice on my corporate and individual tax matters and are also an excellent resource for structuring business transactions.*

*Having practiced as a CPA, I can attest that working with real estate clients isn't easy. To be successful you need to be responsive, creative, hard working and willing to take a position. The BH&J partners take a genuine interest in the success of your business and act as if they are your partner. Their integrity is without question and they find ways to get deals done and minimize your tax liability. That's a rare combination. They exemplify the term "under promise and over deliver."*
